POSTCARD-MUSIC (1976)

NOTE ON THE WORK

Postcard-Music is a little universe of sounds: a short sound, a long sound and a melody. They are part of a cycle to be repeated. Each element can only be played once each time, and various options are suggested to vary or even omit it, as well as concerning listening and taking initiative. The work employs the well-known aleatoric procedure known from Polish orchestral works of the sixties, but much slower, in the manner of a free canon leaving room for an improvised process.
